Simply outstanding: Design flooring from MEISTER

It goes without saying that we have confidence in our own products. So all the better when this confidence is validated by independent testing institutions!

ECO-INSTITUT 'TESTED PRODUCT'

The eco-INSTITUT label certifies construction and furnishing products with particularly low levels of harmful substances and emissions. The thresholds for this certification are much stricter than the statutory requirements, and the products meet special requirements for indoor air quality. Particular emphasis is placed here on an extensive analysis of emissions and materials, as well as an additional olfactory examination.

With our completely PVC- and phthalate-free products, we are one of only a few manufacturers to be awarded the eco-INSTITUT label for design flooring. That makes us proud, and guarantees your MEISTER design flooring is safe, healthy and low in harmful substances!

BLUE ANGEL

Thanks to our responsible choice of materials and our modern manufacturing processes, all MEISTER design flooring bears the Blue Angel seal – the world's first and best-known award for environmentally friendly products and services. This means you can be sure you are choosing low-emission, ecological flooring.

www.blauer-engel.de/uz176

PEFC

The PEFC Council (Programme for the Endorsement of Forest Certification) is the world's largest organisation dedicated to promoting sustainable forest management through forest certification and the labelling of timber products. The PEFC label provides certainty that the raw materials used in the product come from sustainably managed forests. By using this logo, we are making a commitment to supporting the ecological and socially responsible management of forests in accordance with the criteria laid out by PEFC Deutschland e. V.

Do you want a breath of fresh air for your home?
 We have the answer: Design flooring! With its highly modern appearance,
 this innovative flooring looks its best in every room.
 Produced with no PVC or harmful plasticisers, it is the safe and healthy
 alternative to vinyl floorings; it is also extremely robust,
 easy to maintain and simple to install. Because one thing is clear:
 You spend a lot of time with your floor – so it should suit you and
 your requirements perfectly.

We are not the only ones who think that is fantastic: In addition to the
 Blue Angel eco-label and the PEFC seal for sustainability,
 our design flooring is also certified by the eco-INSTITUT.

The eco-INSTITUT label primarily indicates low
 levels of emissions and harmful substances in a product,
 with a particular focus on odour testing –
 because no one wants flooring that gives off an
 unpleasant smell.

Only very few design floors are certified with the
 eco-INSTITUT label. The reason: The permissible thresholds are much
 lower than the law requires. The testing criteria
 are also far stricter than those of other certifications. We undergo this
 testing every two years, completely voluntarily. Because we
 want you to know that you can trust our products!

Design flooring

Catega® Flex

This flooring is warm to the foot and attractive, easy to maintain and durable, and it's also free from plasticisers, simple to install and exceptionally well-suited for renovation projects. That's no fairy tale; it's a design dream come true. The innovative Catega Flex flooring makes staying in a pleasure, and it looks flawless at the same time. From the completely natural to the totally unique, the various decors deliver a diverse range of visually appealing styles. And they are impressive inside and out: With an installation height of just 5 mm but a generous plank design, Catega Flex is slender and attractive; plus, its Multiclic system makes it easy to install securely.

Sustainable Forest
Management
www.pefc.org

The sum of all floors.

The MEISTER design flooring Catega Flex features intelligent, multilayer construction with a sturdy, special AquaSafe board made of unique wooden materials. The high-quality, patented surface with SilentTouch® technology makes the flooring quiet, durable and easy to maintain. Unlike most commercially available vinyl flooring, MEISTER design flooring is odourless. All flooring is suitable for installation on top of hot water underfloor heating systems.

Design flooring Catega® Flex:

Special AquaSafe board	5 years in commercial areas
SilentTouch® surface	Thickness: 5 mm
Available with sound-absorbing	(6 mm with sound-absorbing cushion)
cushion on request	Effective measurement: 2150 x 216 mm

* Warranty according to the MeisterWerke warranty conditions at www.meister.com

SilentTouch®

Made under license from PurChem Systems, Inc. Patented

SilentTouch® technology

The surface of Catega Flex design flooring is produced using innovative, patented SilentTouch® technology, making it exceptionally elastic, quiet, durable and easy to care for.

Design flooring Catega® Flex

All the best features come together in Catega Flex. That's why we consider it the ultimate flooring. With careful handiwork, an eye for design, extensive knowledge and technical experience, we managed to create a floor that can handle a broad range of challenges.

No plasticisers

This floor does not contain any phthalates or other plasticisers and is completely non-harmful to health.

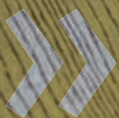

Well-suited for renovation projects

With its ultra-slim profile of just 5 mm, this flooring fits under the door. Catega Flex can also be installed directly on top of old sub-flooring such as tiles. Nothing shows through, thanks to the sturdy special board.

Absorbs room noise

The special surface absorbs noise and provides the silence you need.

Barefoot-friendly

Warmth and exceptional elasticity make this flooring a cosy companion for your home – one that's friendly on your feet!

Dynamic surfaces

Catega Flex planks are smooth, sleek and incomparably flexible.

Truly natural experiences

Convincingly natural details that blend seamlessly into any room meet deceptively authentic-looking surfaces. Flooring that can be subtle – or take centre stage. And healthy living is always the focus: 100% free from plasticisers. No compromises.

MEISTER

**Celebrate
life.**
And your
flooring, too!

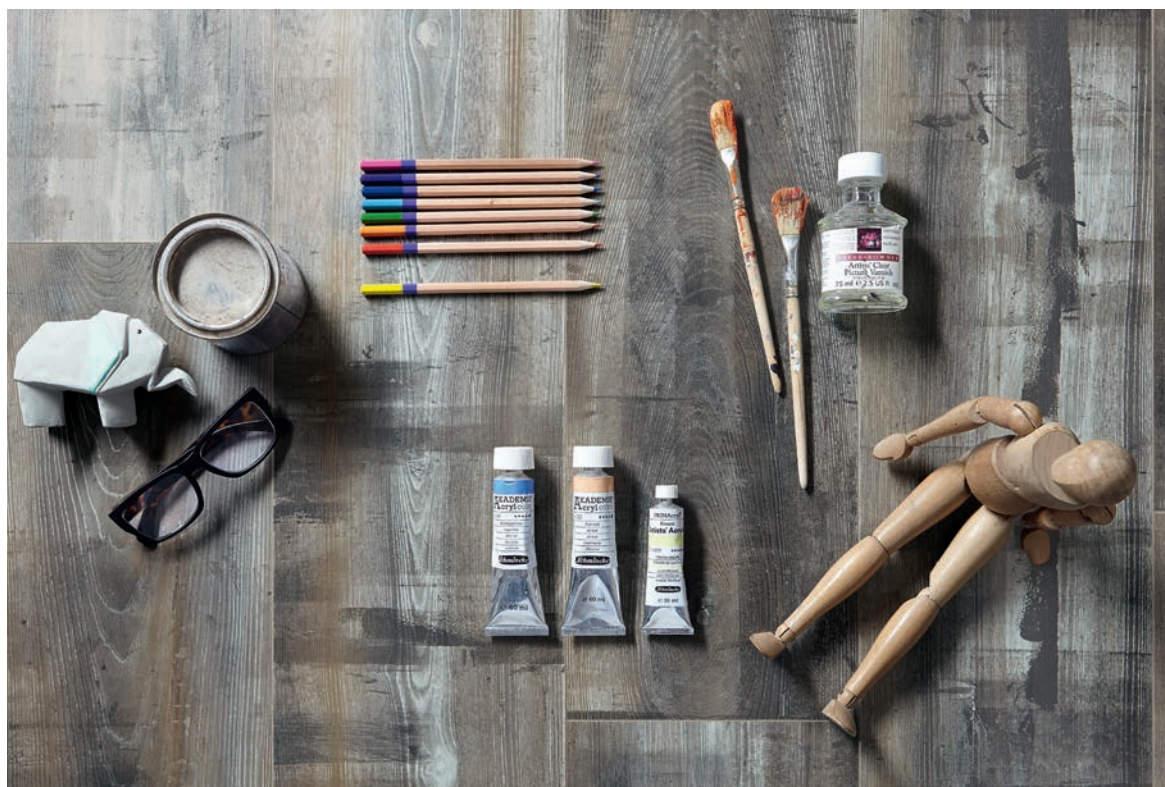

Sophisticated, diverse looks, generous format – Catega Flex plays to all its strengths. With its patented surface technology, it quietly does credit to its name and also keeps feet warm and cosy – thanks to its clever product structure.

Design flooring Tecara

Tecara is design flooring with an extra dose of comfort. There is a cork layer under each high quality *Puretec*® surface, as well as on the underside. The cork provides cushioning that is easy on the joints and minimises noise development – for the best possible sense of well-being. And it looks quite impressive on the outside, as well. The wood structures embossed in the surface lend the decors in this collection a completely authentic look.

Naturally, we also created this design flooring to be completely PVC- and phthalate-free. Because we believe that all components of flooring should be ecological and completely non-harmful to health.

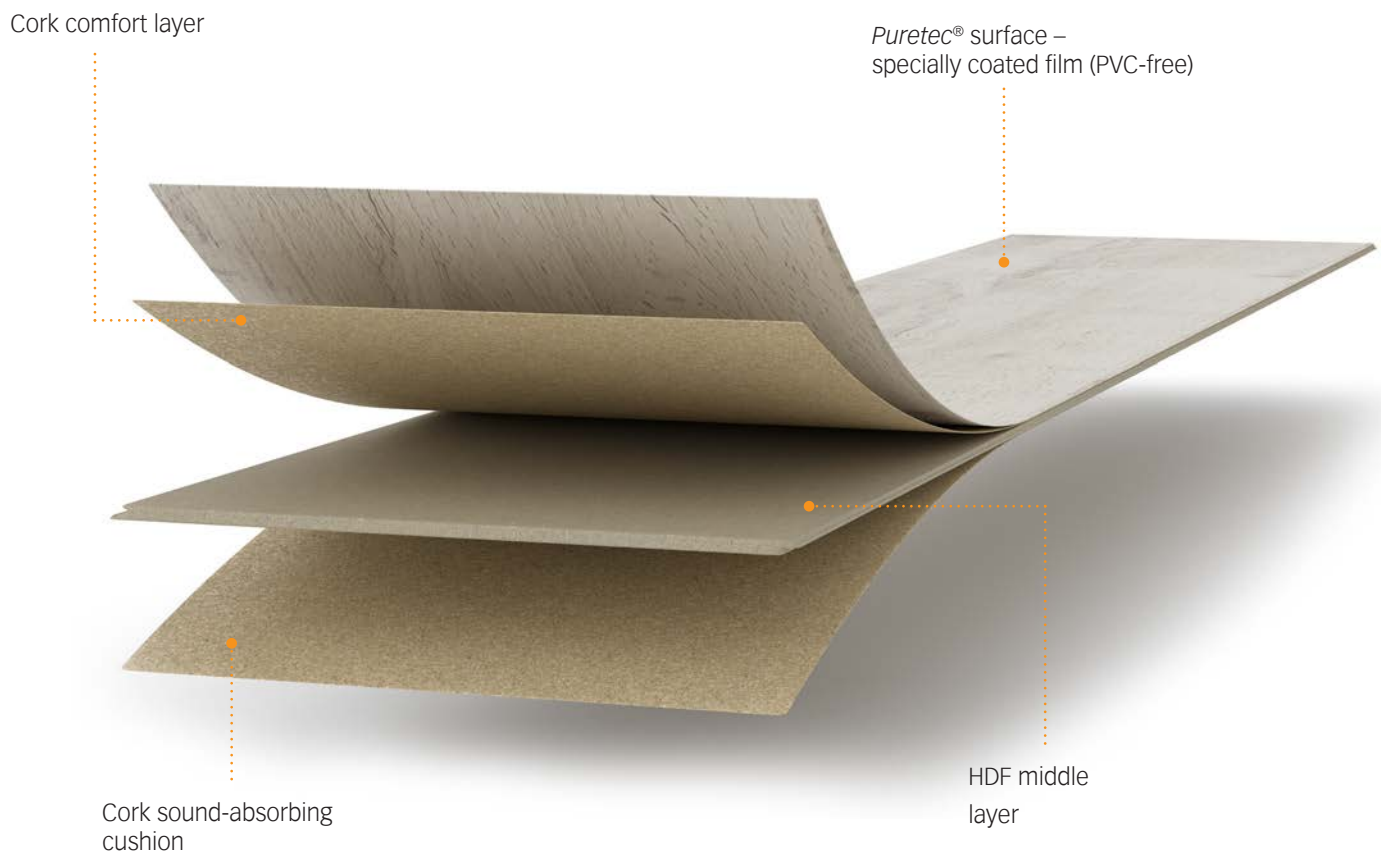

www.blauer-engel.de/uz176

Healthy living can be this beautiful.

Design flooring Tecara features an intelligent multilayer construction with a sturdy HDF middle layer. The cork comfort layer provides cushioning that is easy on the joints and minimises noise development – for the best possible sense of well-being. The high-quality *Puretec*® surface makes the flooring durable and easy to maintain. The additional antistatic finish reduces the development of static electricity on people.

Design flooring Tecara:

1-strip (plank)	MEISTER warranty*
Wear class 23 33	25 years in living areas,
All-round V-bevel	5 years in commercial areas
With 1 mm cork sound-absorbing cushion	Thickness: approx. 9 mm
Click system: Masterclick Plus	Effective measurement: 2120 x 240 mm

* Warranty according to the MeisterWerke warranty conditions at www.meister.com

Design flooring Tecara

If you have an eye for details, you'll find this inspiring. The design flooring Tecara is the culmination of our expertise – from the safe and healthy components to the natural cork cushioning layer.

100% PVC-free

We do not use PVC or harmful plasticisers in the manufacturing of our design flooring.

Barefoot-friendly

Warmth and cushioning make the design flooring Tecara a cosy companion for your home – one that's friendly on your feet!

Odourless

Unlike many types of vinyl flooring, our design floors only include materials that belong in your home. That's why you won't notice any unpleasant (or even potentially harmful) odours. Our floors leave you free to simply enjoy your home.

The floor makes the room

The natural, highly authentic look of design flooring Tecara transforms every room into a cosy living space – and its beauty extends far beyond the surface. In fact, an extra layer of cork in addition to the integrated sound-absorbing underlay makes this flooring particularly comfortable, especially for walking bare-foot. And the best part is: The flooring can be easily installed on top of underfloor heating.

A beautiful experience from end to end

Design flooring Tecara displays perfect mastery of the most important aspects of flooring: It's easy to maintain, durable, safe and healthy, and has a truly unique look. It provides lasting support in every situation – and not just in children's rooms.

Accessories

With MEISTER, you can be sure that everything matches!
Underlay materials, skirting boards, profiles and ends –
you get everything from one source, making your flooring into a
long-lasting integrated furnishing solution that suits you perfectly.

Open to all styles – **white skirting boards.**

What does white have that other colours don't? The openness to adapt to any style and the ability to effortlessly complement all other colours. For this reason, our skirting boards with white decorative film add that little something special to every interior design style and can pair beautifully with all flooring types. The large selection of different profile shapes opens up the opportunity to create both classic and modern accents, depending on individual tastes.

SKIRTING BOARD 8 PK PROFILE | PLAIN WHITE GLOSS 324 (DECORATIVE FILM)

SKIRTING BOARD 19 PK PROFILE | PLAIN WHITE GLOSS 324 (DECORATIVE FILM)

SKIRTING BOARD 8 PK PROFILE | WHITE PAINTABLE 2222
(INDIVIDUAL COLOUR)

Colourful and full of character – **skirting boards you can paint yourself.**

—

In the same colour as the wall? To match your furniture? Or something completely different? It's up to you: Design your skirting boards exactly the way you want! Covered with a paintable film, these skirting boards provide the perfect canvas for your ideas. Let your imagination run wild!

A harmonious look – **with floor-matched skirting boards.**

—

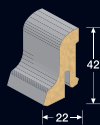

We all have the desire to create pure harmony within our own four walls – and it starts from the bottom up. With skirting boards that match the shade or decor of your flooring, that harmony is easy to achieve. The perfect equilibrium between the flooring and skirting boards is rounded off by the flawless continuation of the decor from skirting board to skirting board. Perfect harmony can look so beautiful.
